

HealthNet Operations

Price List for Fiscal Year 2009-2010

HealthNet Assignments for Port Activations and Deactivations

NOTICE: HealthNet Prices are published for reference use only and should not be construed as the final price. Some locations may require conduit and materials not included in the reference price. If the location has asbestos material in the floors, walls, or ceiling, you will receive a separate and perhaps delayed invoice once we know how much work was performed by the asbestos contractor.

You may request an estimate for individual projects to attain the exact price prior to commencing installation, although this process may delay your installation by over two weeks.
